# Baby's First Year Package

## Portrait Sessions

All baby portrait sessions take place in the baby's home. The familiar smells, sights and sounds make for a pleasant and relaxing sessions. A happy and content baby results in GREAT portraits. These sessions will generally last from 1-2 hours. Longer sessions allow for rest and play so I can capture your child naturally & comfortably.

## Session Times

**Birth to 3 weeks** – It is time to spread the good news!

Birth announcements, siblings & baby, Dad with baby & sleeping baby poses.

**3 months** - Little hands and little feet, belly time and adorable tush! Mom & baby pose.

This is a great time for a “baby parts” collage.

**6 months** – This is a perfect age to share with friends and family to show just how much your baby has grown and changed.

**11 months-1 Year** - It is fun to do a 1 year photo at 11 months to send as invitations for the 1<sup>st</sup> birthday party or at one year with their first birthday cake!

I LOVE this session. What fun & good exercise chasing your little one around!

## Clothing

Babies look best in their own perfect skin! Consider a simple onesie or favorite blanket. Opt for simple clothing in light colors and soft patterns; busy patterns and stripes detract from your child's natural beauty & Spirit.
